maven

```groovy
// add repository MavenCenter
repositories {
    mavenCentral()
}

// add dependency to JUnit4
dependencies {
    testImplementation 'junit:junit:4.12'
    testImplementation 'org.junit.vintage:junit-vintage-engine:4.12.3'
}

// add additional unit test file directories
sourceSets.test.java{
    srcDirs = ['src/test/additionalTests/']
}
```
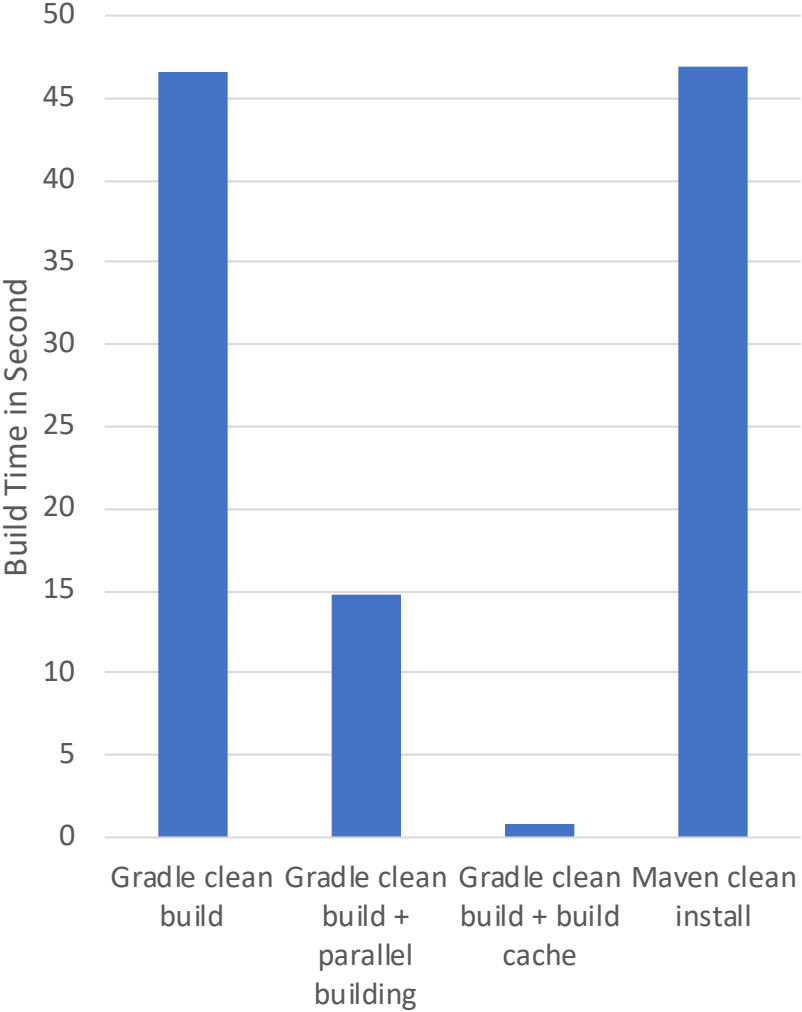

Gradle

Gradle vs Maven

Test Design	Time (second)	Link to the report	Time Saving From
Gradle clean build	46.553	https://enterprise-training.gradle.com/s/kaqp3akwvqy6i/timeline	NA
Gradle clean build + Parallel building	14.792	https://enterprise-training.gradle.com/s/gz5glkdsra5hu/timeline	running all the 10 tests in parallow
Gradle clean build + build cache	0.790	https://enterprise-training.gradle.com/s/tkkgusgoushk6/timeline	directly using all the build cache from the previous build
Maven clean install	46.864	NA	NA

```
org.gradle.caching=true
org.gradle.parallel=true
```

```
tasks.named("test"){ Task it -> maxParallelForks = 12}
```
